

The Point Weekly Bulletin

February 20th – February 27th, 2009

Elevators

Residents are reminded not to play with the alarm buttons in the elevators. Every time that the alarm button is pressed, it calls to our Elevator service company. If they are required to make a trip to the building, we are invoiced for their trip. Any residents, or guests of residents found inappropriately pressing the buttons will be fined, and if the misuse of the emergency buttons results in charges from the service company, the person responsible will have to pay that fee in addition to the fine.
