

# The Point Weekly Bulletin

January 29<sup>th</sup> to February 6<sup>th</sup>

## Telus TV Re-Connected in Media Room

The Strata Council is pleased to announce, in time for the Olympics, that the media room once again has a Telus TV connection. There are instructions on how to use all the television and cable equipment in the Media Room so you can enjoy this amenity.

## Using Parking Spots

Residents are reminded to completely pull into their parking spots. Some residents leave the front or back end of their cars beyond their parking spot while parked. Doing so puts their cars at risk of being hit but also greatly inhibit the ability for cars to pass one another. Please always completely pull into your parking spot.

## Moving

In the past two weeks, two residents who were moving in/out have been fined for leaving the front doors open without any supervision. As such, a new Moving Checklist has been created and will be distributed to people moving in/out on the day of their move. While that checklist should help, please alert the Strata Council if you ever find any door left open without any supervision. As well, please remove any item holding the doors open.

## The Olympics for "Free"

The Vancouver 2010 Olympics will be happening within weeks now! While few people have tickets for the actual Olympic Sporting events, there are a number of other FREE events happening in the city. You can check out the list at <http://www.citycaucus.com/2010free>

## Disaster Planning

The Strata Council will be holding a number of information evenings for residents wanting to help ensure they are ready for disasters and emergencies. All residents should be able to be self-sufficient for up to 72 hours. To learn more, please visit [thepoint.ca](http://thepoint.ca) and click on *Building Info>In An Emergency*.
