

The Point Weekly Bulletin

September 7th to September 13th

Parking Spots for Rent

The Strata Council has been advised that a number of parking spots are available for rent in our parkade. They are available for \$50/month on average and in prime locations in the parkade. If you are interested in renting one of these parking spots please email your details to info@the-point.ca.

Last Strata Council Meeting of Year

The term of your Strata Council is quickly coming to an end. As such, if you have any requests for changes to your unit (including changing blinds or anything else) or any questions you would like reviewed, they need to be submitted to the Strata Council by September 10th. Otherwise they cannot be reviewed until early November. Email your requests to info@the-point.ca.

Unfortunately, at the last council meeting of the year, residents are not allowed to attend as the financials of the building are discussed in detail. At the Annual General Meeting, to be held in October, a complete report and presentation will be made on the finances of the past year and the budget for next year. This will then lead to a vote of acceptance on the budget and any strata fee increases needed.

Waiting for Gate and Speeding

In the past week, a number of residents or their visitors, have been seen not waiting for the gate and speeding through the parkade. If you see anyone speeding in the parkade, or not waiting for the gate, please email the date/time of the event and the video camera footage will be reviewed and fines will be levied.

The security of the building and safety of residents in the parkade is important...so please wait for the gate and don't speed.

What do you think?
